The screenshot shows a web application titled "The Better City" with a tagline "We help you check the environmental issues in your city". A "Login / Sign Up" link is in the top right. A modal window titled "Log In" is open, featuring input fields for "Email" and "Password", a "Log in" button, and links for "Reset/Forgot Password?" and "New User? Sign Up". The background displays a report for a "Broken slide" at "Golden Gate Park", categorized as "Broken City Property" with a status of "Open". The report includes the date and time "Tue Aug 13 2019 17:58:21 GMT+0000 (Coordinated Universal Time)" and the reporter "john". A description reads "Broken slide at Golden Gate Park, please fix this as soon as possible!" and is accompanied by a photo of a broken orange slide.

About Us

Team 4

Our Mission : Develop a website to report and search for environmental issues.

We at "TheBetterCity" are a team of 8 computer science students at the San Francisco State University. We believe everyone is needed in our attempt to preserve our mother nature. We are all concerned about the future of our planet. Environmental issues are becoming a big part of everyone's daily life, if it's not already. On the way of having a better future for our city and its nature, we made the "TheBetterCity" application that provides a web-based service for allowing people to post and view environmental problems in their neighborhoods. It's also a great tool for the environmental services companies to monitor and assign work for these issues and get them fixed.
